BUILT WITH PASSION:

With an ultra-low centre of gravity, lightweight frame and aerodynamic position, Gizmo AX represents everything Trisled is passionate about! Our world-renowned carbon-fibre seat, reverse mainframe and sleek design gives you comfort, style AND speed. What more could you want from a trike?

IMPORTANT INFORMATION:

Gizmo AX is designed specifically for road use and is not compliant with Australian HPV racing regulations.

How low can you go? 550mm and less than 13 kilograms thanks to Trisled's lowest, lightest and fastest trike!

Building on Gizmo's refined geometry, the Gizmo AX is even smaller and zippier than its compact cousin.

This is a high performance trike with fantastic handling and excellent speed potential which is sure to excite even the most hardened roadie. Gizmo AX has been developed through Trisled's extensive HPV racing experience.

Its geometry has been optimised to provide the best balance between handling and maneuverability.
